

HIPPO 2042P

Hydraulic, Electric Pneumatic & Welding Power!

The 2042P Provides:

- ◆ Rotary Screw Air Compressor: 40 or 80cfm @ 110 psi
- ◆ 4KW hydraulic-driven Electric Generator
- ◆ Two (2) Hydraulic Tool Circuits with 0-10 gpm @ 2000 psi adj. Flow
- ◆ Variable, 200amp DC welder
- ◆ **Any two functions (hydraulic, air, electric or welding) can be operated at the same time!**

2042P Control Panel

Size/Weight: 68"L x 20"W x 20"H @ approx 650lbs

Features:

- ◆ One ¾ inch, high-pressure air outlet w/crows foot (80cfm port)
- ◆ Two ½ inch air quick disconnects
- ◆ Two 0-10 gpm hydraulic tool circuits w/ quick disconnects
- ◆ Welding lead connections
- ◆ Four 120 volt, 30amp outlets
- ◆ Two 12 volt outlets
- ◆ PTO Powered off automatic transmission (with PTO provision)
- ◆ Rated for continuous duty use

multipower™
